New 60mm Transparent Lens Stacklights

There are now **more** visual options for customers looking for 60mm Stacklights with a traditional appearance. Mallory's [JTC Universal Stacklight Series](#) features transparent colored lenses that light up brilliantly when activated. **Red, yellow, green, blue** and **white** lens colors are all available individually or in any combination.

Choose between **direct** mount or **pole** mount which includes a standard 12 inch stainless steel pole, or order the optional black electroplated pole. The **bracket** used on the pole mount Stacklights is a **standard** round mounting bracket that is secured to the equipment with four standard #10 or 5 mm screws.

While the visual portion of the Stacklight has a new look, the **audible** portion still has Mallory's **superior** sound options which include the choice of [4 different sounds](#): a continuous tone, a medium pulse tone, a slow double pulse tone, or a tone that is continuous for 5 seconds and then converts to a short pulse tone. The last sound option is **useful** for those situations where the machine condition may take a while to fix. Each of the 4 tones has a 2,000 Hz frequency which is **preferred** by operators and is 1,000 Hz lower than the competition.

Approvals include [UL](#), [CUL](#), [CE](#) (24Vac/dc Models), and NEMA 12; IP-52. These Stacklights can be used in any indoor industrial **application** including:

Machine Tooling

Water Treatment

Printing Machines

Food Machinery

Conveyors

Industrial Label Machines

Brewing & Distilling

Large Medical Equip.

Semiconductor Fabrication

Flow Control Equip.

Pharmaceutical Equip.

General Industrial Control

Metal Detection

Packaging Equip.

Inspection Equip.

[Contact](#) Mallory for more details or any questions you may have. You can review the operating and installation instructions at this [Link](#).

Mallory's [30mm and 60mm Stacklights](#) are **manufactured** in Indianapolis, Indiana with **lead-times** of stock to 4 weeks. Approvals include [UL](#), [CUL](#), [CE](#) (24VAC/DC JTC Series Models); NEMA 12, & IP-52.

Mallory's New Panel Lights are Available at Mallory's Distributors

Mallory recently introduced many **new Panel Light** models. These models are now available at Mallory [distributors](#). New features include:

- **Black zinc** coated cases. These models are becoming more popular with industrial and transportation applications.
- **Dual color** models. These models feature any two colors in a single package.
- More **package** types in popular sizes.
- All new models are non-polar except for package type FL1A-8CW (labeled below as “Polar”).
